In today's fast-changing environment, institutions continually seek ways to boost efficiency, foster innovation, and enhance adaptability, ultimately improving outcomes and community engagement. Decentralization and participative management have emerged as vital strategies to achieve these goals, with strong leadership playing a key role in implementing and sustaining them. At Santhigiri College, decentralization and participative management are deeply valued, enabling each stakeholder to explore, develop, and contribute their ideas.

The Managing Board, led by the College Manager, meets twice annually to establish policies for the smooth functioning of the college in three key areas: administration, academics, and finance. In these meetings, the Principal's report is thoroughly reviewed and discussed to ensure effective governance.

The Administrative team comprising of the Principal, the Vice Principals, the Bursar and the Senior faculty members, makes strategic decisions regarding the college's development and implementation of the strategic plan. The Principal is accountable for overseeing academic, non-academic, and administrative functions. Additionally, the Internal Quality Assurance Cell (IQAC) plays a vital role in ensuring the institution's quality standards, overseeing academic audits, and implementing measures to enhance teaching, learning, and research excellence.

The College Staff Council, which includes faculty members, actively engages in implementing the policies and frameworks established by the management. Faculty members are represented on various committees and are encouraged to organize seminars, workshops, and conferences that contribute to student and institutional growth. Many are appointed as coordinators and conveners for these initiatives.

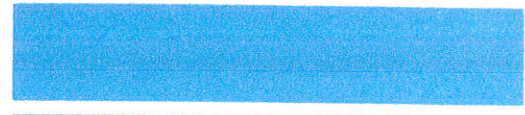

Administrative staff manage office operations and human resources with full autonomy, ensuring the institution runs efficiently. Support staff play a crucial behind-the-scenes role in maintaining seamless operations.

The student community, alongside the students' union, organizes various activities across departments, sports, arts, and extracurricular fields. These initiatives foster leadership and inclusivity among students, who are encouraged to raise concerns about academic, intellectual, emotional, and social well-being.

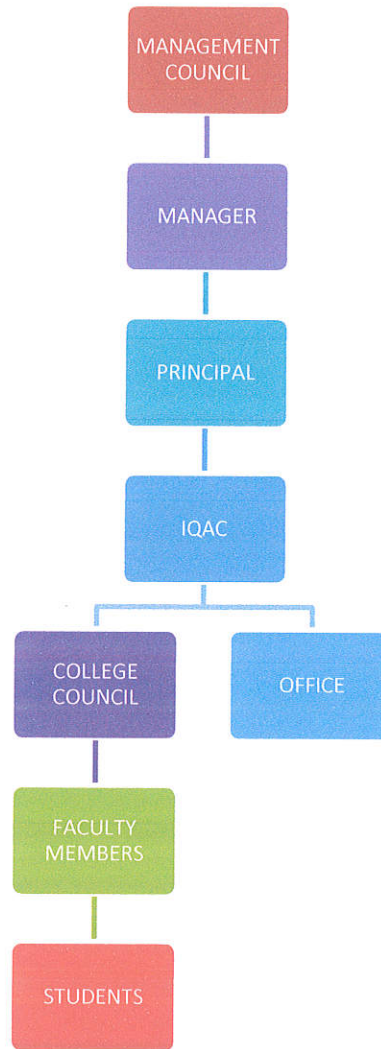

This empowered and collaborative approach nurtures a culture of shared responsibility and engagement, promoting institutional success and community growth.

Case Study

Santhigiri College organized NAVARASA 2023, an Arts Festival program, to foster creativity and showcase students' talents. The event aimed to provide a platform for students to express themselves artistically and develop organizational skills. The program's primary objective was to highlight students' creativity and talents. The target audience included all undergraduate (627 participants) and postgraduate students (168 participants) from various departments.

NAVARASA 2023 took place on January 17-19, 2023. Off-stage events occurred on January 17-18, while on-stage events were held on January 19 at the Santhigiri Auditorium, Main Block Seminar Hall, Indoor Stadium, and classrooms. Renowned singer Ms. Neelima Shiju, from Sa Re Ga Ma Pa fame, graced the event as the chief guest.

The Arts Cell collaborated with Dance Cell, Music Cell, Debate Cell, and Theatre Cell to organize the event. A total of 41 events were conducted, with departments competing for top honors. Different committees were formed to share the responsibilities and for a systematic organization of the events. In the process the college management practiced effective leadership through involvement of the teaching and the non-teaching staff and as well as the student community. Various committees of faculty members were constituted for registration, volunteer charges, food, help-desk, discipline, appeal, and venue management. Non-teaching staff were assigned duties to take care of different venues and registration processes. In addition, student volunteers were assigned for each stage. Proper instructions were given to all volunteers and coordinators as and when required. Training sessions were also conducted as required. Efforts were made to ensure that communication between various departments are carried out smoothly. More than an arts festival NAVARASA provided a sense of responsibility, inclusivity and authority to all involved. It can be considered as the best case scenario of decentralization and participative management.

The program successfully encouraged students to experience the arts, showcasing their talents and developing organizational skills. The Department of Computer Science secured first place with 143 points, followed by the Department of Social Work (100 points) and the Department of Psychology (third place).
