Policies and Procedures

Our college will categorize students into advanced learners, average learners, and slow learners based on four primary parameters: Previous Board or University Examination Results, Post-Admission Test, Internal Examination Marks, and Class Participation. Each of these parameters will be scored out of 100, and the final percentage for each student will be calculated by averaging the scores from these four criteria. The categorization is as follows: students scoring above 80% will be classified as advanced learners, those scoring between 60% and 80% as average learners, and those scoring below 60% as slow learners. This categorization ensures that students' academic performance and classroom engagement are holistically assessed.

Based on this categorization, specific actions will be taken for each group:

- **Advanced Learners:** These students will be provided with enrichment programs, advanced workshops, research opportunities, and leadership roles in academic projects to challenge their potential and encourage further growth.
- **Average Learners:** They will receive regular academic support, study groups, and additional resources to strengthen their understanding and gradually improve their performance. Guidance will be given to help them achieve advanced status.
- **Slow Learners:** These students will be given personalized learning plans, remedial classes, tutoring sessions, and one-on-one mentorship. The focus will be on building their foundational knowledge, boosting their confidence, and offering additional resources to help them catch up with the curriculum.

Post Admission Test

Our college is conducting post-admission tests for all programs to assess students' foundational knowledge and readiness for their academic journeys. These tests help students identify their strengths and weaknesses, allowing them to seek targeted support and resources for improvement. This proactive approach enhances their learning experience and fosters accountability. For the college, the results provide valuable insights into the preparedness of the incoming cohort, enabling faculty to refine teaching strategies and tailor support services. Ultimately, this initiative promotes a more effective learning environment, contributing to student success and retention across all programs.

A

B

4) Which is the smallest 5 digit number that is a multiple of 9?

11114

11117

11113

11115

Other: _____

5) Which is the smallest number to be added to make 84263677 divisible completely by 9?

1

2

3

none of these

6) IC chips used in computers are usually made of

Silicon

Lead

Chromium

Gold

1) $0.9 \times 0.007 =$ _____

0.063

0.0063

0.63

2) If A, B = 4 and B, C = 9 then A, B, C is

20, 35, 63

35, 36, 63

30, 35, 65

25, 34, 68

3) Which one of the following is not a prime number?

31

61

71

91

7) $666666 + 33?$

22222

20202

2222

none of these

Other: _____

10) Which word does NOT belong with the others?

- inch
- ounce
- centimeter
- yard
- Other: _____

11) Which was the world's first successful electronic computer?

- PARAM
- ENIAC electronic Numerical Integrator and computer
- CRAY-1
- Pascaline
- Other: _____

12) Choose the word which is different from the rest

- curd
- butter
- oil
- cheese
- Other: _____

16) The average of the first five multiples of 9 is:

- 20
- 27
- 28
- 30
- Other: _____

17) The average marks of four subjects is 120. If 35 was misread as 13 during the calculation, what will be the correct average?

- 122
- 120
- 125
- 121
- Other: _____

18) A boy runs 200 metres in 24 seconds. What is his speed?

- 20 km/hr
- 24 km/hr
- 28.5 km/hr
- 30 km/hr
- Other: _____

13) In a certain code 'GIVE' is written as '31@8' and 'FAIL' is written as '*219'. How is 'LEAF' written in that code?

- 5@2%
- 9@2%
- 9@2%
- 9@1%
- Other: _____

14) Look at this series: 53, 53, 40, 40, 27, 27, ... What number should come next?

- 12
- 14
- 27
- 53
- Other: _____

15) Pointing to a photograph of a boy Suresh said, "He is the son of the only son of my mother." How is Suresh related to that boy?

- brother
- uncle
- cousin
- father
- Other: _____

19) A can do a work in 14 days and working together A and B can do the same work in 10 days. In what time can B alone do the work?

- 25 days
- 30 days
- 23 days
- 35 days
- Other: _____

20) The sum of ages of 3 children born at the intervals of 3 years each is 30 years. What is the age of the youngest child?

- 4 years
- 8 years
- 10 years
- None of these
- Other: _____

21) One kilobyte is equal to

- 1020 bytes
- 1024 bytes
- 1000 bytes
- 1024 bits
- Other: _____

22) A is two years older than B who is twice as old as C. If the total of the ages of A, B and C be 27, the how old is B?

- 7
- 8
- 9
- none of these

23) How many terms are there in $2+4+6+\dots+1024$?

- 8
- 9
- 10
- 11

24) Paw, Cat, Hoof ?

- Horse
- Lion
- Lamb
- Elephant
- Other

27) Select the example of application software of computer

- Both C and B
- Ms Excel
- Ms Word
- Ms DOS
- Other

28) -----Oranges are grown in Nagpur

- a
- an
- the
- no article
- Other

29) Find out the odd one.

- Linux
- Unix
- Internet
- Android
- Other

25) Annotate is related to Text as Caption is related to _____ ?

- Novel
- Law
- Film
- Photograph
- Other

26) Read each sentence given below and find out whether there is an error in it. The error if any will be one of the parts of the sentence which are marked as 1, 2, 3 and 4

Recently I visited (1) Singapore and found (2) the sceneries to be (3)

- 1
- 2
- 3
- 4

30) Do you want..... a cup of tea?

- takes
- to take
- take
- taking
- Other

31) A person of good understanding, knowledge and reasoning power

- Expert
- Intellectual
- Snob
- Literate
- Other

32) Which of the following is used in pencils?

- Graphite
- Silicon
- Charcoal
- Phosphorous
- Other

33) Permanent hardness of water can be removed by adding

- chlorine
- washing soda
- potassium permanganate
- bleaching powder
- Other: _____

34) LPG consists of mainly

- methane, ethane and hexane
- ethane, hexane and nonane
- methane, hexane and nonane
- methane, butane and propane
- None

35) Plants receive their nutrients mainly from

- chlorophyll
- atmosphere
- light
- soil
- None

39) Which is the highest gallantry award in India?

- Param Vishistat Seva Medal
- Param Vr Chakra
- Kirti Chakra
- Vr Chakra
- Other: _____

To each of the following question four probable answers have been given. select the most appropriate alternative as the answer

40) While traveling in a train, you found that some college students pulling the alarm chain

- with the help of other passengers check them from do
- Let them pull the chain but check them from de-train
- Inform the Police
- Keep quiet and do nothing
- Other: _____

36) Metals are good conductors of electricity because

- they contain free electrons
- the atoms are tightly packed
- they have high melting point
- All of the above
- Other: _____

37) Who is the author of the book 'My Experiments with Truth'?

- Mahatma Gandhi
- Michael Anderson
- Winston Churchill
- James Morris
- None

38) Who is the first Asian Winner of Nobel Prize?

- C. V. Raman
- Rajiv Gandhi
- Rabindranath Tagore
- Mother Teresa
- None

41) While going on a scooter, you find someone has been hurt by your vehicle, you would -

- Try to run away from the spot immediately
- stop your vehicle and say I am sorry.
- Take him to doctor and arrange for his medical aid
- pay compensation for the injury and you continue your journey
- Other: _____

42) Your maid has invited you to her daughter's wedding. You would -

- Attend the wedding
- Buy a gift for her daughter and help in wedding. Completely
- ignore her.
- Congratulate her and make up some excuse for not attending

43) You are alone in the house and your sister-in-law is suddenly experiencing labour pains. You would -

- Get upset and do not know what is the right step
- Go out of the house to call your family doctor
- walk her to the nearest hospital
- Call an ambulance for emergency

2.2.1 Assessing Learning Levels of Students

44) You're standing at the door of the train that has just left platform. Suddenly you see a man from your behind coach falling off the train. What will you do?

- Pull the alarm chain so that the train may stop. Shout at the falling man asking him to get up quickly. Jump off the train to assist the falling man.
- Wait till the train stops at the next station and inform police.

45) Everyone in your department has received a new computer system except for you. What would you do? Please choose the most effective responses.

- Assume this is a mistake and speak to your manager.
- Confront your manager regarding why you are being treated unfairly.
- Take a new computer from one of your colleagues.
- Complain to the Human Resources department.

46) You are aware that large amounts of company property have been going missing over the past couple of weeks. You have noticed one of your colleagues putting stationery and other equipment from the office into her bag on a number of occasions and suspect that she is responsible. What is your response to the situation?

- Gather more evidence and catch her red-handed.
- Confront your colleague and ask her about what you have noticed. Inform your manager that you suspect your colleague is stealing.
- Privately ask some of your colleagues if they have noticed anything suspicious recently.
- Other: _____

47) The brain of any computer system is

- ALU
- Memory
- CPU
- Control unit

48) The binary system uses powers of

- 2
- 10
- 8
- 16

Other: _____

51) All of the following are examples of real security and privacy risks EXCEPT:

- hackers
- spam
- viruses
- identity theft

Other: _____

49) A device or system not directly connected to the CPU is

- On-line
- Keyboard
- Memory
- Off-line

Other: _____

52) Surgeons can perform delicate operations by manipulating devices through computers instead of manually. This technology is known as

- robotics
- computer forensics
- simulation
- forecasting

53) Technology no longer protected by copyright, available to everyone, is considered to be

- proprietary
- open
- experimental
- in the public domain

54) _____ is the science that attempts to produce machines that display the same type of intelligence that humans do

- Nanoscience
- Nanotechnology
- Simulation
- Artificial intelligence (AI)

55) _____ is data that has been organized or presented in a meaningful fashion

- A. process
- Software
- Storage
- Information
- Data

56) Computers gather data, which means that they allow users to _____ data

- Present
- Input
- Output
- Store
- Print

57) The term bit is short for:

- megabyte
- binary language
- binary digit
- binary number
- Other

58) _____ is any part of the computer that you can physically touch

- Hardware
- A device
- A peripheral
- An application

59) All of the following are examples of input devices EXCEPT a

- scanner
- mouse
- keyboard
- printer
- monitor

Student Induction Program

The Student Induction Program for UG and PG students (2022-25) was held on 2nd September 2022 at Santhigiri Indoor Stadium. Dr. Raju D Krishnapuram delivered a motivational speech on setting future goals, discipline, and adapting to global changes. The MCA Induction Program for 2022-2024 was conducted on 12th October 2022 at the SIM Seminar Hall, featuring Dr. Dhanya Job as the guest speaker. Both programs guided students of all learning levels—advanced, medium, and slow—by fostering self-exploration, academic focus, and adaptability to new challenges.

Bridge Course

Our college offers bridge courses for all programs, specifically designed to benefit students from diverse academic backgrounds. These courses provide essential foundational knowledge to help students transition smoothly into their chosen fields, ensuring that no one is left behind. Advanced learners can use the bridge course to deepen their understanding of fundamental concepts while exploring more advanced topics. Medium learners benefit from structured learning that strengthens their grasp of essential subjects, helping them build confidence and proficiency. Slow learners are given a gradual, supportive learning environment where they can close knowledge gaps at their own pace, ensuring they have a solid foundation to succeed in their program. This inclusive approach fosters academic growth and ensures that students, regardless of their prior education, can excel in their new academic journey.

MCA Bridge Course Syllabus

Course Code	Course Title	Specific Titles	No of Hours
MCA BC01	Computer Fundamentals and Hardware	Computer Fundamentals -History and Generations of Computer, Basic parts of Computer, Identification of the internal and external hardware/peripheral components. Illustrate the booting procedure (using windows and Linux).	4
MCA BC02	Foundations of Mathematics and Statistics concepts	Fundamentals of Statistics - Measures of central tendency and dispersion- Mean, Median, Mode, Mean deviation, Standard deviation, variance, covariance. Matrices - Definition, types of matrices, row canonical form. Elementary combinatorics - Permutation and combination.	8
MCA BC03	Digital Fundamentals	Digital Fundamentals -Digital Systems and logic families, AND, OR, NOT, NAND, NOR, Universal Gates-Properties and Exclusive-OR operations. Classification of Number System, Types of Number System, Conversions from One Base to Another,	6
MCA BC04	Problem Solving Techniques	Programming Fundamentals -Generation of programming, introduction to various types of programming (Assembly, machine level, application, web etc....). Algorithm, Flowcharts, Design algorithm and flowchart for simple sequential problems. Design algorithm and flowchart for control structures (decision making and iterative)	6
MCA BC05	Fundamentals of Computer Networks	Network Fundamentals -Analog and Digital communication, bitrate, baud rate, Types of network (LAN, WAN etc....). Types of Transmission Media-Guided and Unguided media, Topologies, Internet, Intranet, switching devices and Client/Server Technology.	4
MCA BC06	Introduction to Operating	OS Fundamentals -Operating system functions, Different types of OS, Comparison between windows & Linux operating system,	4

Extra-Curricular Activities

The college conducted a wide range of inter-departmental competitions for the 2022-23 academic year, showcasing our commitment to providing enriching extracurricular activities for all students, whether they are advanced, medium, or slow learners. From dance, music, and cultural performances such as Bharatanatyam, Duffmuttu, and Folk Dance, to creative expressions in drawing, face painting, and bottle art, we ensured diverse opportunities for students to participate. Additionally, literary events like essay writing, elocution, and story writing were held in both English and Malayalam. These activities foster creativity, teamwork, and self-expression, promoting holistic development for every student.

2.2.1 Assessing Learning Levels of Students

Our college takes immense pride in the achievements of our students at the MG University Kalolsavam, where they won numerous prizes and earned excellent grades, showcasing their diverse talents. This success is a testament to the dedication and hard work of all students, regardless of their learning levels—slow, medium, or advanced.

Paper Publications and Conferences

In the academic year 2022-23, our college successfully hosted two prominent conferences: the National Conference on “IFRS Convergence and Adoption in India” organized by the Department of Commerce on October 28, 2022, and the International Conference on Advanced Computing and Communication Technology (ICACC-2023) held by the Department of Computer Science on February 10, 2023. The former featured the inauguration by Mrs. Dr. J. Latha, Pro-Vice Chancellor of Jain Deemed to be University, and a keynote address from Mrs. Dr. Manjula R. Iyer, Associate Professor and Research Guide at Chinmaya Deemed to be University. Both conferences provided advanced learners with valuable opportunities to publish and present their research papers, facilitating

CALL FOR PAPERS

About ICACC:
The conference aims to provide an International forum for exchanging ideas among researchers, students, and faculty. It provides a common platform to discuss the technical work and research on interdisciplinary areas of Computer Science to allow users to provide an understanding, confidence on various recent trends and challenges in Computer Science and its numerous applications. Abstracts for selected refereed papers will be published in IJCI or journal.

- Natural Language Processing
- Computer and Information Science
- Intellectual Property Rights
- Marketing and Operations
- Cloud Computing
- Image Processing

International Conference

On Advanced Computing and Communication Technology
ICACC-2023
10 FEBRUARY 2023

DATES TO REMEMBER

SHIP

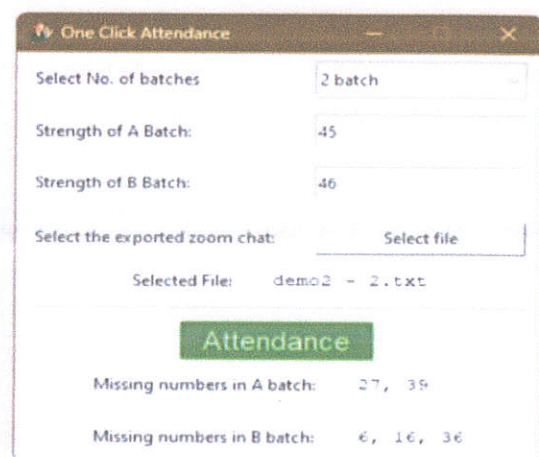

Santhigiri Hub for Innovation and Promotion (SHIP) serves as a vital platform for nurturing entrepreneurial talents across all student learning levels—advanced, medium, and slow learners. SHIP's mission is to support students in transforming innovative ideas into real-world ventures through mentorship, workspace, and essential resources.

For **advanced learners**, SHIP offers complex projects like *DB Comparator* and *Automated Fire Extinguisher*, allowing them to leverage their skills in problem-solving and technology, pushing the boundaries of innovation.

Medium learners benefit from SHIP's structured guidance on projects like *One Click Attendance*, which encourages them to apply their knowledge practically while receiving mentorship to refine their ideas.

For **slow learners**, SHIP provides opportunities like the *Website for Yuva Deepthi KCYM*, where they can build foundational skills through collaborative efforts and hands-on experience, enabling growth at a comfortable pace.

Through initiatives such as the *Idea Proposal Contest* and a webinar on MSME startups, SHIP fosters a culture of innovation that accommodates learners of all levels, empowering them to realize their entrepreneurial potential.

Workshops

In the academic year 2022-23, our college successfully conducted several skill development workshops, including Photoshop Mastery, a Hardware Workshop, a Laravel Framework Workshop, and a Cloud Computing Workshop. These initiatives were designed to enhance the skills of advanced and medium learners. Advanced learners gained in-depth knowledge in software development and cloud infrastructure, enabling them to tackle complex engineering problems. Medium learners benefitted from hands-on experience in hardware configuration and troubleshooting, as well as creative skills in Photoshop. Collectively, these workshops fostered a culture of innovation and practical learning, equipping students with essential skills for their future careers.

Career Guidance Sessions

Career guidance sessions, such as the one conducted by Angala Laya Eldon of SPS Academy for final-year students, play a crucial role in supporting learners at different levels. For slow learners, these sessions provide clear direction and personalized advice, helping them to identify their strengths and potential career paths, thus boosting their confidence. Medium learners benefit by gaining insights into various fields, enabling them to refine their choices and set realistic goals aligned with their skills. Advanced learners can explore specialized opportunities, network with industry professionals, and receive guidance on advanced studies or research options, ultimately enhancing their readiness for the competitive job market.

2.2.1 Assessing Learning Levels of Students

On July 25th, the Department of Psychology at Santhigiri College of Computer Sciences organized a career orientation program titled “Psychology as Career” at Bede Memorial Seminar Hall. This program aimed to enlighten students about the various branches and scope of psychology, highlighting the growing importance of the field in today’s society. Participants received valuable insights into the diverse career opportunities available within psychology and guidance on how to prepare for postgraduate entrance examinations at reputed universities. The event successfully equipped students with the necessary knowledge to make informed decisions about their future careers in psychology.

Peer teaching is an effective educational strategy that benefits slow, medium, and advanced learners in distinct ways. For slow learners, it provides a supportive environment where they can receive personalized attention from peers who explain concepts at a pace that suits their learning style. This interaction boosts their confidence and understanding of the material. Medium learners gain from

2.2.1 Assessing Learning Levels of Students

peer teaching by reinforcing their knowledge through teaching others, which deepens their comprehension and retention. For advanced learners, peer teaching allows them to explore concepts more deeply, as they engage with diverse perspectives and questions posed by their peers. This collaborative approach fosters a richer learning experience for all involved, promoting critical thinking and communication skills across different learning levels.

Invited Talks

Invited talks, conducted by various departments of our college, provide valuable learning opportunities for slow, average, and advanced learners by exposing them to expert knowledge and real-world perspectives beyond the classroom. Slow learners benefit by gaining exposure to simplified and practical explanations of complex topics, helping them better understand challenging subjects and boosting their interest in learning. Average learners are inspired to deepen their knowledge, ask insightful questions, and explore new areas of interest, while also receiving guidance on how to apply academic concepts to real-life situations. For advanced learners, invited talks offer an opportunity to engage with experts, expand their intellectual horizons, and explore cutting-edge developments in their fields. Overall, these sessions foster curiosity, critical thinking, and motivation across all learning levels, enhancing both academic growth and career preparedness.

Student Counselling

At our college, we actively promote counselling services to support the diverse learning needs of slow, average, and advanced learners, ensuring holistic development. Counselling helps slow learners by offering personalized strategies to overcome academic challenges, improving their confidence, and helping them cope with frustration or low self-esteem. Average learners benefit from guidance on time management, study techniques, and stress reduction, enabling them to enhance their performance and stay motivated. For advanced learners, counselling helps in managing the pressure

2.2.1 Assessing Learning Levels of Students

of high expectations, preventing burnout, and encouraging a healthy balance between academic achievement and personal growth. Through individualized attention, our counselling services ensure that every learner is empowered to reach their full potential, fostering both emotional resilience and academic success.

COUNSELLING CENTRE

Students Mentoring

The Mentoring aims to provide guidance, support, and direction to students, fostering their personal, academic, and professional growth. Mentoring will be provided to all the students of Santhigiri College. All the faculty members are allocated with a list of students as their mentees. Mentoring may be either One-on-One Mentoring or group Mentoring. Mentors are required to meet their mentees at least 2 times in a semester. Every year training will be provided for mentors to carry out mentoring efficiently. An effective mentoring encourages students to set and achieve personal goals, develop

self-awareness, and build confidence. It also provides a listening ear and support for students facing emotional challenges or stress. Mentors enter mentoring details in the Embase Pro Suit application. Faculty members are required to keep records confidentially and at the end of each academic year, submit it to the mentoring cell.

The screenshot shows the 'Mentor Mentee' section of the Embase Pro Suit application. It includes a sidebar with navigation options like HOME, ACCOUNT, ATTENDANCE, ASSESSMENTS, APPLICATION, ADMISSION, CERTIFICATES, CLUBS, COURSE STRUCTURE, DATA MANAGEMENT, DEPARTMENTS, EVENTS, EMBASE, and FEE COLLECT REGISTER. The main content area displays a table of mentees for the 'BSc Psychology-2022-25' batch. The table has columns for Sl No., Date, Admission No., Mentee Name, Status, Area of Mentoring, Outcome, and Mentor Name. A 'Submit' button is visible at the bottom of the table.

PTA Meetings

At our college, individual PTA (Parent-Teacher Association) meetings are conducted every semester after Internal Examination 1, serving as a vital platform to support slow, average, and advanced learners. For slow learners, these meetings help parents and teachers collaborate to identify specific academic challenges, set realistic goals, and develop personalized strategies to enhance their performance. Average learners benefit from receiving feedback on their progress, addressing any gaps in learning, and staying motivated through constructive discussions on improvement areas. For advanced learners, PTA meetings focus on maintaining high performance, managing academic pressure, and exploring opportunities for further intellectual growth. Overall, PTA meetings foster a strong partnership between parents and educators, ensuring that all students receive the guidance and support they need to excel in their academic journey.

Remedial Sessions

Remedial sessions are specifically designed to help slow learners by providing targeted support that addresses their individual learning needs. These sessions offer personalized instruction that breaks down complex concepts into simpler, more manageable parts, allowing students to grasp subjects at their own pace. Remedial sessions focus on reinforcing fundamental skills, such as reading comprehension, problem-solving, and basic study habits, which are essential for academic improvement. They also create a low-pressure environment where students can ask questions freely and receive extra practice without the fear of judgment.

Additionally, remedial sessions help boost self-confidence by providing students with small, achievable goals, making learning more enjoyable and empowering slow learners to catch up with their peers.
